Thyme is a lovely young horse with a very mature and relaxed outlook on life

She's built for sport, while being pretty and correct in her movement and with an amicable and trainable temperament .

She hacks alone or in company, is great with farm traffic open spaces etc

She has a lovely light snaffle mouth and is submissive to the lightest contact. Her paces show good ability for pure dressage and she has a wonderful uphill canter and confident jump.

She is unblemished and could be a cracking small show hunter, great event prospect, WH or a fabulous all-rounder

A seriously nice and uncomplicated young mare who is something special.
